Title: **JP6187334A2: PAGE DESCRIPTION LANGUAGE CONVERTING DEVICE**

Country: **JP Japan**

Kind: **A**

Inventor(s): **TARASAWA KENJI**

Applicant/Assignee: **FUJI XEROX CO LTD**

[News, Profiles, Stocks and More about this company](#)

Issued/Filed Dates: **July 8, 1994 / Dec. 21, 1992**

Application Number: **JP1992000355448**

IPC Class: **G06F 15/20; B41J 5/30; B41J 21/00; B41J 29/38; G06F 3/12;**

Priority Number(s): **Dec. 21, 1992 JP1992000355448**

Abstract:

Purpose: To provide a page description language converting device which can interpret different kind of page description language programs and can specify an alteration of the layout of a printing output and alter it at the time of printing.

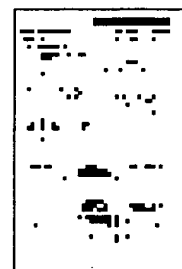

Constitution: The page description language converting device is equipped with a layout definition generating means 8 which generates layout definitions for a processing program in page description language to be printed by specifying form size, a page range, and a layout, a definition adding means 4 which decides the kind of the page description language program, and adds program definition and layout definitions enabling a processing program in specific page description language to interpret the page description language program to be printed, and a program interpreting means 6 which interprets the page description language program, where the definition adding means 4 adds the program definitions and layout definitions by using the program definitions and layout definitions.
